Creating Change Together

2022- 2023 | Prevent

# Fake News, Conspiracy and Truth

Understanding misinformation and how to see through it

**Parents, Carers & Community Settings | 60 mins**

7th Feb 09:30-11:30 and 17:00 -18:30

Free online course

This session looks to better inform parents, carers and people who support children and young people on the increasingly complex and sensitive topic on online harms. Its main focus is to tackle perceptions around fake news, conspiracy theories and extremism and how to talk to and support young people (and each other) in building resilience to these topics.

Together with the facilitators you will explore where to go for help if needed and some of the next steps to creating safer online spaces. Participants are encouraged to question and critically engage on the topic of fake news, conspiracy theories and extremism on and offline, and how perception may be manipulated.

Through this impactful workshop we look to deepen knowledge of the subject, introduce some practical tools to use with your children and young people whilst building confidence in a safe space using interactive and engaging content.
